

REST

REST – CONTROLLER

```
class RestController extends AbstractRestController
{
    /**
     * @var EntityManager
     */
    private $em;

    /**
     * @var ClassMethods
     */
    private $hydrator;

    public function __construct(EntityManager $em, $hydrator)
    {
        $this->em = $em;
        $this->hydrator = $hydrator;
    }
}
```
