ORM - FIXTURE

```php
class FaceFixture extends AbstractFixture
{
    /**
     * @param ObjectManager $manager
     */
    public function load(ObjectManager $manager)
    {
        $post = new Post();

        $post->setName('Test 1');

        $post->setDescription('Test Post 1');

        $manager->persist($post);

        $manager->flush();
    }
```
